

Summary of Major Amendments

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
Version 2 - Cement	April 2026	Summary of Assessment Criteria	Updated the points achievable under waste management to +5 in the assessment criteria summary table.	To ensure alignment with related sections.	-
		2.1	Updated the acronyms in Section 2.1 to revise WBCSD: World Business Council for Sustainable Development.	To ensure the accuracy of the information.	-
		3.3.2.1	Minor revision in wording and update the footnote for latest reference. Adjusted clinker emission default from 525 kg CO ₂ /t (v2.0) to 535 kg CO ₂ /t.	To enhance clarity in the description.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		3.3.2, 4.1.1	Finetuned the CFP benchmark in Section 4.1.1 CFP Quantification. Added GB/T 24025-2009 as the applicable standards.	To enhance clarity of CFP benchmarking and the description.	-
		4.2.1	Supplement the reporting period in case of newly established manufacturer.	To enhance the clarify of the reporting periods.	-
		4.3.1	Clarified the definition of transportation distance for raw materials.	To clarify the definition for regional material.	-
Version 2 - Precast Concrete	April 2026	4	Summary of Assessment Criteria Updated wording in Requirements and Verification documents for various criteria.	To ensure alignment and consistency.	-
		3.2	Clarified required information in CFP report. <ul style="list-style-type: none"> • Functional units and reporting units redefined • Terminology Update • Expanded details on ready-mixed concrete and added requirements for reinforcing bars 	To provide clarity on the required information.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
		3.3.2, 4.1.1	Finetuned the CFP benchmark in Section 4.1.1 CFP Quantification; Added GB/T 24025-2009 as the applicable standards.	To enhance clarity of CFP benchmarking and the description.	-
		4.2.1	Updated the recycle contents requirements.	To ensure alignment with the ready-mixed concrete and requirements.	-
		4.2.2	Updated Table 7 to include more examples of common solid waste; Updated wording for verification documents required.	To enhance clarity in the description.	-
		4.3.1	Clarified the definition of transportation distance for raw materials.	To clarify the definition for regional material.	-
		4.3.2	Updated the requirements on verification documentation.	To enhance clarity in the description.	-
		4.4.1, 4.4.2	Wording and index updated.	To improve navigation and accuracy.	-
		4.5.1	Minor revision on wording. Added example in Table 10 for smart technologies.	To enhance clarity in the description.	-
		5	Included "(Maximum possible: 100)" in Table 11.	To emphasize and remind applicants that the maximum point is 100.	-
Version 2 - Ready-mixed Concrete	April 2026	2.1, 3.4, 4.3.1, 4.4.1, 4.5.1, 5	Minor revision in wording.	To enhance clarity in the description.	-
		3.3.2.1	An exclusion statement has been added specifying that emissions from refrigerants are excluded when they constitute less than 1% of the plant's total CO2 emissions.	To enhance clarity in the description.	-
		3.3.2.2	Added relevant figure reference in iii) Off-site Transportation of Raw Materials to the Manufacturing Plant.	To enhance clarity in the description.	-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
		3.2	Updated the reporting unit to kgCO ₂ e under Section 3.2.	To specify the appropriate unit for use in the assessment standard.	Version 2 - Precast Concrete
		3.3.3	Updated the definition for single product, single plant and single product, multi plant in Table 2 under Section 3.3.3.	To clarify the definition for certification types.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		3.3.2, 4.1.1	Finetuned the CFP benchmark in Table 3 under Section 4.1.1 CFP Quantification. Added GB/T 24025-2009 as the applicable standards.	To enhance clarity of CFP benchmarking and the description.	Version 2 - Precast Concrete
		4.3.1	Clarified the definition of transportation distance for raw materials.	To clarify the definition for regional material.	-
		5	Included "(Maximum possible: 105)" in Table 8 under Section 5.	To emphasize and remind applicants that the maximum point is 105.	-
Version 2 - Reinforcing Bar and Structural Steel	April 2026	1.2	Inserted the term “structural” in Section 1.2 to specify applicability, now stating: “It is applicable ..., namely... (ii) structural steel.”.	Enhanced clarity for applicability to structural steel products.	-
		2	Refined the wording of the definitions for “Electric Arc Furnace (EAF),” “Direct Reduced Iron (DRI) Furnace,” and “Pelletising” in Section 2.	To refine the sentence for better clarity and Improved precision and technical accuracy.	-
		2	Updated the definition of a blast furnace in Section 2 to now state: "An iron-making furnace ... at <i>around</i> 2000°C.".	To enhance clarity in the description.	-
		3.3.1	Revised sentence in Section 3.3.1 now state: “In the BOF,... a cooling agent <i>is also added</i> ... the exothermic reaction.	To enhance clarity in the description.	-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		3.3, 3.3.2, 4.1.1	Finetuned the CFP benchmark in Section 4.1.1 CFP Quantification. Added GB/T 24025-2009 and GB/T 24067-2024 as the applicable standards.	To enhance clarity of CFP benchmarking and the description.	Version 2 - Precast Concrete
		4.1.1	Update the verification method for A4 emission for the transportation	To enhance application and renewal procedures	General Requirements
		4.2.1	Refined the definition of "slag" and "scrap steel".	To improve readability and avoid ambiguity.	-
		4.3.1	Clarified the definition of transportation distance for raw materials.	To clarify the definition for regional material.	-
		5	Included "(Maximum possible: 100)" in Table 6 under Section 5.	To emphasize and remind applicants that the maximum point is 100.	-
Version 2 – Air Handling Unit	April 2026	Title	Added "Technical Requirements" to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & Operator contact details for the scheme.	To enhance clarity in the description.	-
		1.2	Minor wording updates.	To enhance clarity in the description.	-
		3	Added definition of “FEG”, “IE”, “IEC”, “LWA”, “Single-speed”, “Three-phase”, “Biological Cycle”, “Technical Cycle”, “Third-party”, “VOC”.	To enhance clarity.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.2.1	Added GB/T 24025-2009 as the applicable standards.	To enhance clarity.	-
			Revised the scoring criteria under CFP Quantification to	To ensure fairness and	-

			award 10 bonus points for the submission of either an LCA report or a product level EPD.	consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	
		4.3.1.1, 4.3.2.1, 4.4.3.1, 4.6.1	Minor wording updates and updated verification documents.	To enhance the clarity of the requirement and verification.	-
		4.3.1.3, 4.3.1, 4.3.4, 4.5.2.1, 4.5.2.2, 5	Minor wording updates.	To enhance clarity.	-
		5	Updated related BEAM Plus Credits.	To enhance clarity.	-
Version 2 – Cable and Wire	April 2026	Title	Added "Technical Requirements" to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & Operator contact details for the scheme.	To enhance clarity in the description.	-
		1.2, 2, NON-CORE CRITERIA, 4.3.2.1, 4.3.4.1, 5	Minor wording updates.	To enhance clarity.	-
		3	Terminology Updated Added definition of “LV”, “LSZH”, “PVC”, “FR” and “MICC”.	To enhance clarity.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.2.1	Expended Acceptable Standards Added GB/T 24025-2009 and GB/T 24067-2024 as the applicable standards in CFP reports and EPD standards.	To enhance the clarity of the requirement.	-
Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD		-

				submissions	
		4.3.1	Corrected the number of Bonus Points that can be achieved under “Circularity” in Section 4.3.1 and now states: “The Applicant is required... maximum 15 Bonus Points under this section.”.	To enhance the clarity of the points.	-
		4.3.1.1	Updated Verification Requirement for the recyclability Removed MSDS: Material Safety Data Sheets no longer required.	To enhance the clarity of the requirement.	-
		4.3.2.1	Updated Verification Requirements Refined the requirements for the verification Documentation of waste management.	To enhance the clarity of the requirement.	-
		4.3.4	Added “The Applicant can achieve maximum 10 Points under this section.”.	To enhance the clarity of the points.	-
		4.4.3	Added “The Applicant can achieve maximum 40 Points under this section.”.	To enhance the clarity of the points.	-
		4.4.3.1	Updated Verification Requirements Refined the requirements for the verification Documentation of Hazardous Substance.	To enhance the clarity of the requirement.	-
		4.4.3.2	Updated Verification Requirements Refined the Table 1: Maximum limit on heavy metal concentration and associated points and updated the requirements for the verification Documentation of Heavy Metal.	To enhance the clarity of the requirement.	-
		4.5.1	Clarified the criteria for “Innovations & Additions” in Section 4.6.1. Applicants are required to provide a narrative with supporting documents.	To enhance the clarity of the requirement.	-
Version 2 - Chiller	April 2026	Title	Added "Technical Requirements" to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & Operator	To clarify the role of CIC and	-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
			contact details for the scheme.	HKGBC and to provide contact for related inquiries.	
		3	Added definition of Biological Cycle and Technical Cycle. Revised definition for VOC Content.	To enhance clarity.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.1.1	Updated the criteria type.to Core Criteria.	To improve the consistency.	-
		4.2.1	Added GB/T 24025-2009 as the applicable standards.	To enhance clarity.	-
			Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	
		4.3.1, 4.3.3, 4.3.4, 4.4.1, 4.5.1	Minor wording updates.	To enhance clarity.	-
		4.3.1.3 4.3.2.1	Updated verification documents.	To provide clarity on the required supporting documents.	-
		4.4.3	Updated the total basic points to be achieved under this section. Updated description of verification documents under Section 4.4.3.3, 4.4.3.4, 4.4.3.5. Minor wording updates.	To improve the consistency and clarity in the requirements.	-
		4.5.1.1	Clarify the version of BEC and ASHRAE Standards. Update the percentage improvement for Basic Points.	Updated requirements and enhance clarity.	-
		5	Updated related BEAM Plus Credits.	To enhance clarity.	-
	April 2026	Title	Added “Technical Requirements” to the main title.	To enhance clarity.	-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
Version 2 - Compact Fluorescent Lamp		1.1	Addition of detailed ownership information & operator contact details for the scheme.	To clarify the role of CIC and HKGBC and to provide contact for related inquiries.	-
		1.2	Refined wording in Section 1.2 now states: “There are two types of CFLs, i.e.: (i) integrated... illumination purposes.”	To enhance clarity in the description and reduce redundancy.	-
		3	Refined wording in Section 3 now states: “Self-ballasted lamp: A unit that incorporates <i>and</i> permanently encloses all... lamp’s life”. Added definition of “CRI”, “MAPL”, and “VEELs”.	To enhance clarity in the description.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.2.1	Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	-
		4.3.1.1, 4.3.2.1, 4.3.4, 4.3.1.1, 4.5.3.1	Description updated. Clarify the description in requirements.	To enhance clarity in description.	-
		4.3.1.1, 4.3.2.1, 4.5.1.1	Verification Requirements Updated Update the requirements for verification documents.	To enhance the clarity of the requirement.	-
		4.3.3.3	Refined wording in the Section 4.3.3.3 title now states: “Water Management System – Non-core Criteria”.	To enhance clarity in the title.	-
		4.5.1.2	Updated the benchmark of Table 2	To eliminate the error number in the table	-
		4.5.2	Clarified the criteria title in Section 4.5.2 which now states: “Lighting Performance”.	To enhance clarity in the criteria title.	-
		4.6.1	Clarified the criteria for “Innovations & Additions” in	To enhance clarity in the	-

			Section 4.6.1 to specify the verification includes a narrative with supporting documents.	description.	
		5	Added wording in Section 5 now includes the indication of core criteria: “Total Harmonics [CORE]” and “Durability [CORE]”.	To enhance clarity in the criteria.	-
		5	Updated the related BEAM Plus credits.	To provide clarity on the BEAM Plus credit requirement.	-
Version 2 – Cooling Tower	April 2026	Title	Added "Technical Requirements" to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & Operator contact details for the scheme.	To enhance clarity in the description.	-
		3	Added definition of “ASHRAE”, “BEC”, “CTI”, “VSDs”, “Biological Cycle”, “Technical Cycle”, “VOC”.	To enhance clarity.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.1.1, 4.3.2.1	Updated requirements for verification documents.	To enhance clarity in the description.	-
		4.2.1	Added GB/T 24025-2009 as the applicable standards. Updated verification documents.	To enhance clarity in the description.	-
			Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	
4.4.3.1, 4.5.1.1, 4.5.1.4	Clarified the requirements and verification.	To enhance the clarity of the requirement and required supporting document.	-		

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
		4.3.1.1, 4.3.1.2, 4.3.1.3, 4.3.3.1, 4.3.3.2, 4.3.4.1, 4.4.1.1, 4.4.3.2, 4.6.1, 5	Minor wording updates.	To enhance the clarity of the requirement and reduce redundancy.	-
		5	Updated related BEAM Plus Credits.	To enhance clarity.	-
Version 2 - Electronic Ballast	April 2026	Title	Added “Technical Requirements” to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & operator contact details for the scheme.	To clarify the role of CIC and HKGBC and to provide contact for related inquiries.	-
		1.2, 2	Description Updated Clarify the description in requirements.	To enhance clarity in the description.	-
		3	Added definition of “GB” and “IEC”.	To enhance clarity in the description.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.2.1	Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	-
		4.3.1.1, 4.3.2.1, 4.3.3, 4.3.4, 4.3.4.1, 4.4.3.1 4.5.1.1	Description Updated Clarify the description in requirements.	To enhance clarity in description.	-
		4.3.1.1, 4.3.2.1, 4.5.2.1, 4.6.1	Verification Requirements Updated Update the requirements for verification documents.	To enhance the clarity of the requirement.	-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
		5	Added wording in Section 5 now includes the indication of core criteria: "Hazardous Substances [CORE]".	To enhance clarity in the criteria.	-
		5	Updated the related BEAM Plus credits.	To provide clarity on the BEAM Plus credit requirement.	-
Version 2 – Fan Coil Unit	April 2026	1.1	Added wording in Section 1.1 now includes the claim of ownership of the CIC over the Scheme: "The Scheme is owned by the Construction Industry Council (CIC)... Email: cicgpc@hkgbc.org.hk".	To enhance clarity in the description.	-
		3	Added definition of "AMCA", "BLDC", "FEG", "Biological Cycle", "Technical Cycle", "VOC".	To enhance clarity in the description.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.1.1	Updated verification documents.	To enhance clarity.	-
		4.2.1	Added GB/T 24025-2009 as the applicable standards. Updated verification documents.	To enhance clarity.	-
			Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	
		4.3.1.1, 4.3.1.3, 4.3.3.1, 4.3.3.2, 4.3.4.1, 4.4.1.1, 4.5.2.2, 4.6.1, 5	Minor wording updates.	To enhance clarity.	-
		4.4.3.1, 4.4.3.2, 4.5.1.1	Clarify the requirements in the criteria. Updated verification documents.	To enhance the clarity of the requirement and verification.	-
		4.5.2.1	Updated verification documents.	To enhance clarity.	-
5	Updated the related BEAM Plus credits.	To improve	-

				comprehensiveness.	
Version 2 – LED Lighting	April 2026	Title	Added "Technical Requirements" to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & Operator contact details for the scheme.	To enhance clarity in the description.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.2.1	Expended Acceptable Standards Added GB/T 24025-2009 as the applicable standards. Updated verification documents.	To enhance clarity.	-
			Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	-
		4.3.1.1, 4.3.2.1, 4.3.4.1, 4.4.1.1	Minor wording updates.	To enhance the clarity of the requirement.	-
		4.5.1.2 4.5.1.3, 4.5.2.1, 4.5.2.2	Updated verification documents.	To enhance the clarity of the requirement.	-
		4.5.3.2, 4.5.3.3	Moved “Lifespan for Switch” to the Non-core Criteria summary table, as it only awards Bonus Points.	To enhance consistency.	-
5	Added wording in Section 5 now includes the indication of a core criteria: “Product Information [CORE]”.	To enhance consistency.	-		
Version 2 - Photovoltaic Module		Title	Added "Technical Requirements" to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & Operator contact details for the scheme.	To enhance clarity in the description.	-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
	April 2026	1.2, 2,	Minor revision on wording.	To enhance clarity in the description.	-
		3	Added definition of “CdTe”, “CIGS”, “Monocrystalline silicon”, “Polycrystalline silicon” and “Thin-film”, “Biological Cycle” and “Technical Cycle”.	To enhance clarity.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.2.1	Added GB/T 24025-2009 as the applicable standards. Updated verification documents.	To enhance clarity in the description.	-
			Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	
		4.3.1.1, 4.3.2.1, 4.3.3.1, 4.3.5.3	Updated verification documents.	To provide clarity on the required supporting documents.	-
		4.3.4.1, 4.3.4.2, 4.3.5.1, 4.4.1.1, 4.5.2.2	Minor revision on wording.	To enhance clarity in the description.	-
		4.5.1.1 4.5.1.2 4.5.2.1	Minor revision on wording. Updated verification documents.	To provide clarity on the required supporting documents.	-
5	Updated related BEAM Plus Credits.	To enhance clarity.	-		
Version 2 - VRF Split Type System		Title	Added "Technical Requirements" to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & Operator contact details for the scheme.	To enhance clarity in the description.	-
		3	Added definition for several abbreviations used in the	To enhance the clarify.	-

	April 2026		Standard.		
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.1.1, 4.3.1.1, 4.3.1.2, 4.3.3.1, 4.3.3.2, 4.4.1.1, 4.6.1	Minor wording updates.	To enhance clarity.	-
		4.2.1	Added GB/T 24025-2009 as the applicable standards.	To enhance clarity.	-
			Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	
		4.3.1.3, 4.3.2.1, 4.3.4.1, 4.4.3.3, 4.4.3.4, 4.5.2.1	Updated the required verification documents.	To enhance the clarity of the requirement.	-
		4.4.3	Updated the total points to be achieved under this section.	To improve the consistency.	-
		4.4.3.1	Updated the criteria type to Non-core Criteria. Minor wording refinements. Clarify the testing requirements under IEC 62321.	To enhance the consistency and clarity of the requirement.	-
		4.4.3.2	Updated the testing requirements under IEC 62321 and verification documents.	To enhance the clarity of the points.	-
		4.5.1.1	Table 3 added to clarify the requirements, clarify BEC version and updated required percentage improvement. Updated verification documents.	Updated requirements and enhance clarity.	-
5	Updated related BEAM Plus Credits.	To enhance clarity.	-		
Version 2 – Water Pump	April 2026	Title	Added “Technical Requirements” to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & operator contact details for the scheme.	To enhance clarity in the description.	-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
		3	Added definition of “IE”, “IEC”, “LWA”, “Biological Cycle”, “Technical Cycle”, “Third Party”, “VOC”.	To enhance clarity.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.2.1	Added GB/T 24025-2009 as the applicable standards. Updated verification documents.	To enhance clarity in the description.	-
			Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	
		4.1.1, 4.3.1, 4.3.2.1, 4.3.4.1, 4.4.3.1, 4.4.3.2, 4.5.1.1, 4.5.2.1	Clarified the requirements and verification.	To enhance the clarity of the requirement and required supporting document.	-
		4.5.3.1	Minor wording updates.	To enhance the clarity of the requirement.	-
		5	Updated the related BEAM Plus credits.	To improve comprehensiveness.	-
Version 2 – Adhesive and Sealant	April 2026	Title	Added "Technical Requirements" to the main title.	To enhance clarity.	-
		1.1	Addition of detailed ownership information & operator contact details for the scheme.	To clarify the role of CIC and HKGBC and tot provide contact for related inquiries.	-
		3	Added definition of “GB”, “SCM”.	To enhance clarity.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.1.1	Updated verification requirements.		-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
				To enhance the clarity of the requirement.	
		4.2.1	Included GB/T 24025-2024 and GB/T 24025-2009 as acceptable standards. Updated verification requirements.	Updated verification requirements.	
			Revised the scoring criteria under CFP Quantification to award 10 bonus points for the submission of either an LCA report or a product level EPD.	To ensure fairness and consistency in the scoring mechanism by recognizing that both CFP and EPD submissions	-
		4.3.2.1, 4.4.4.2	Clarified the description in the requirements.	Clarified the description in the requirements.	-
		4.3.3.1, 4.3.5.1	Updated verification requirements.	To enhance the clarity of the requirement.	-
		5	Updated the related BEAM Plus credits.	To improve comprehensiveness.	-
Version 2 - Aluminium	April 2026	1.1	Addition of detailed ownership information & operator contact details for the scheme.	To clarify the role of CIC and HKGBC and to provide contact for related inquiries.	-
		1.2	Description Updated Clarify the description in requirements.	To enhance clarity in the description.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.1.1	Requirement Updated The requirement for "Methods of cleaning/maintenance" has been removed from Section 4.1.1.	To streamline disclosure requirements.	-

Assessment Standard	Last Update Version	Section	Change Description	Reason for Change	Affected Document
		4.2.1	Added Categorization Added “CFP quantification – Non-core Criteria” in the Section 4.2.1 title. Updated the unit of CFP to tCO2e/t. Expended Acceptable Standards Added GB/T 24025-2009 as the applicable standards in LCA reports and EPD standards.	To enhance clarity in the title and description.	-
		4.3.3.1, 4.3.5.3	Description Updated Clarify the description in requirements.	To enhance clarity in the description.	-
		4.4.3.1, 4.4.3.2, 4.4.4.1, 4.6.1	Verification Requirements Updated Update the requirements for verification documents.	To enhance the clarity of the requirement.	-
		5	Updated the related BEAM Plus credits.	To provide clarity on the BEAM Plus credit requirement.	-
Version 2 - Block for Internal Partition	April 2026	Title	Added “Technical Requirements” to the main title.	To enhance clarity.	-
		Summary- Human Toxicity	Corrected list of flame retardants in Human Toxicity and Ecosystem Impact section. Removed ‘Per- and Polyfluoroalkyl Substances’	To correct the list of flame retardants.	-
		1.1	<u>Addition</u> of detailed ownership information & operator contact details for the scheme.	To clarify the role of CIC and HKGBC and to provide contact for related inquiries.	-
		3	Added definition of “GB” and “STC”.	To enhance clarity.	-
		4	Update the documentation/report/certificate requirement	To enhance application and renewal procedures	-
		4.1.1, 4.3.2.1	Clarified the description in the requirements.	To enhance clarity in the description.	-
