Engineered Wood flooring

CANICA ENGINEERED HARDWOOD FLOORING

Top and bottom layers are made from real wood specie. Same wood specie has same characteristics which ensure higher stability.

Another special design is its 3-layers criss-cross construction for better bonding and strength which ensures higher stability.

Therefore, CANICA 3-layers Engineered hardwood flooring is the most stable flooring available in the market.

Engineered Flooring :

Thickness : 15 mm, 18 mm
Width : 125 mm, 152 mm, 190 mm
Length : Random length 450-1950 mm

Solid Flooring :

Thickness : 18 mm, 22 mm
Width : 125 mm, 90mm
Length : Random length 450-1210 mm

We can tailor-made other sizes and colours.
